PROFESSIONAL SUMMARY

Software Developer Ruby and Java, with a solid foundation in frontend and backend JavaScript frameworks, relational databases, and version control using Git and GitHub. Committed to solving complex problems and driving innovation through technical expertise, leadership, and teamwork. An effective communicator and quick learner, I thrive in diverse environments and continuously seek opportunities to create impactful solutions and contribute to dynamic teams.

EDUCATION

Federal Institute of Piauí, Technician, Systems Development

2024 — Present

- Gained a robust foundation in software engineering principles, data structures, algorithms, and system design.
- Emphasized hands-on experience and problem-solving skills, preparing for real-world technology and software development challenges.

Federal Institute of Piauí, Technician, Computer Science

2018 — 2021

- Gained a robust foundation in software engineering principles, data structures, algorithms, and system design.
- Emphasized hands-on experience and problem-solving skills, preparing for real-world technology and software development challenges.

SKILLS

- Programming Languages: Ruby, Java, JavaScript, TypeScript.
- Tools and Technologies: Ruby on Rails, Vue.js, Node.js, PostgreSQL, Tailwind CSS.
